

3rd DCVMN/PATH Pharmacovigilance e-Workshop

May 12-13, 2021 via WebEx

Themes:

- Inspection readiness for vaccine pharmacovigilance
- Operational maintenance of the product safety committee/board

Objectives:

At the end of this workshop, participants should be able to:

1. Understand documentation and record management requirements.
2. Become aware of need for monitoring compliance and system performance.
3. Learn about critical pharmacovigilance processes and business continuity.
