

Nelson Rolihlahla Mandela

18 July 1918 – 05 December 2013

“Giving children a healthy start in life, no matter where they are born or the circumstances of their birth, is the moral obligation of every one of us. It is heartbreaking to think that three million children die each year from diseases that we can prevent.”

Address by Nelson Mandela at Vaccine Conference, April 2002

The world will no longer hear the great freedom fighter’s forgiving voice, but he left us a huge legacy. We are forever grateful!
