Advanced Training Workshop on Vaccine Safety Monitoring: Supply Chain

Integrity and Pharmacovigilance Management

27 to 30 May 2019, São Paulo, Brazil

<p>Mr. Marcelo Oliveira Sá</p> 	<p>Senior Executive, GS1 Brazil</p>	<p>Mr Sá has 20 years of experience working in various sectors advising on process automation projects and product traceability. He has extensive government relations experience and assists in the development of laws / regulations, with entrepreneurs of all levels and company size, always focusing on results for organizations. An experienced speaker, he has represented GS1 Brazil both nationally and internationally.</p>
<p>Mr. Tim Kram</p> 	<p>General Manager, Rommelag USA</p>	<p>Mr. Kram is an Engineer and pharmaceutical business development professional. For the past 16 years, he has worked with companies to develop aseptic product fill/finish solutions using Blow/Fill/Seal technology. For ten years he has worked to introduce temperature sensitive biotech and vaccine products to BFS technology. Mr. Kram regularly consults and gives presentations to BFS operators, industry groups and regulatory organizations.</p>
<p>Mr. Mike Rush</p> 	<p>Executive Director - Global Health Policy, Temptime Corporation</p>	<p>Michael Rush is the Executive Director of Global Health Policy for Temptime Corporation, a Zebra Technologies Company. He is responsible for advocacy and implementation of health policies incorporating temperature monitoring solutions to improve patient outcomes, public health, product integrity, and supply chain cost-efficiencies. Mike collaborates with government officials, agency leaders, and organizations such as WHO, UNICEF, Gavi, the Gates Foundation, and PATH.</p>

<p>Dr. Katharina Hartmann</p> 	<p>Independent Consultant</p>	<p>Dr Hartmann has 40 years of experience in vaccine and drug safety. Formerly Global Head Vaccine Pharmacovigilance for the Vaccine Business Unit of Takeda, she has also held executive positions at the Swiss Drug Monitoring Center SANZ, Crucell (Switzerland), the former Berna Biotech AG / Swiss Vaccine and Serum Institute. Dr Hartmann is currently an independent consultant for pharmacovigilance / pharmacoepidemiology.</p>
<p>Dr. Varun Sharma</p> 	<p>Team Leader, PATH</p>	<p>Dr. Sharma is Team Leader at the PATH New Delhi office where he works closely with vaccine manufacturers, supporting them in setting up pharmacovigilance systems in accordance with applicable regulatory requirements. He has rich experience in medical writing, clinical research and pharmacovigilance and has managed teams engaged in establishing time bound pharmacovigilance activities covering expedited reporting, global periodic report generation, signal detection, SOP generation and compliance monitoring.</p>
