

## Speakers Booklet

### E-workshop (via WebEx) on Regulatory Pathways and changes in Vaccine Testing 27-29 April 2020

**Dr Nora  
 Dellepiane**

Dr Dellepiane has 40 years' experience in production and control of biological products. Nora headed the NCL in Argentina for 10 years and worked at WHO for 19 years. She now supports manufacturers and regulators to address challenges in the quality/regulation of biologicals, including providing training in this field.

**Ms Laura Viviani**

Ms Viviani has more than 10 years' experience on the scientific, regulatory, business and ethical impact of alternative methods to animal testing in vaccines R&D, production and release testing (Novartis, GSK). Laura is responsible of the 3Rs activities in DCVMN and is a consultant on global regulatory harmonization of vaccines' alternative methods for Humane Society International.
