

## DCVMN/PATH e-Workshop on Safety Signal Detection and Risk Management

October 13-14, 2021 via Zoom

**Themes:**

- Safety signal detection
- Risk management (specifically for new vaccines)

**Objectives:**

At the end of this workshop, participants should be able to:

- Understand the methodologies to detect and assess safety signals
- Become aware of the pharmacovigilance planning process and how to characterize and minimize safety concerns, incl risk management plans

Wednesday October 13 <sup>th</sup> 2021		
Time	Topic	Speaker
11:00-12:00 CET	Introduction to Signal Detection and Management	Katharina Hartmann <i>DCVMN</i>
12:00-12:05 CET	Break	
12:05-12:30 CET	Q&A	Katharina Hartmann <i>DCVMN</i>

Thursday October 14 <sup>th</sup> 2021		
Time	Topic	Speaker
11:00-12:00 CET	Risk management plans: an industry perspective <ul style="list-style-type: none"> <li>• Pharmacovigilance planning</li> <li>• Risk minimization</li> </ul>	Katharina Hartmann <i>DCVMN</i>
12:00-12:05 CET	Break	
12:05-12:30 CET	Q&A	Katharina Hartmann <i>DCVMN</i>
