

Supply Chain WG and Traceability Meeting
Tuesday 22nd November 2022 (11.00 a.m. - 13.00 p.m. CET)
Objectives:

- Share experiences derived from pilot studies to setting up and implementing vaccine traceability through GS1 barcoding on the secondary and primary packaging to comply with global supply¹: achievements and challenges.
- Share experiences from implementation of Warehouse Management System pilot upgrade, to enable end-to-end traceability of vaccines.
- Draw lessons learnt to be shared with the broader global supply community, in form of a report/publication(s)

Outcomes:

Summary of lessons learnt from the traceability pilots and the Warehouse Management System pilot on a report.

Time	Topic	Speaker
11:00 – 11:10	Welcome and introductions Brief background information on traceability	Chairperson Ms. Lingjiang Yang
11.10 – 11:20	Overview of the Supply Chain Initiative: motivation, priorities, WG, traceability pilots, warehouse management system pilot, packaging innovations, and stockpiling	Dr. Yvette Madrid
11:20 – 11:30	Report of Bharat Biotech 2D barcoding on primary packaging	Mr. Krishnamurthy
11:30 – 11:40	Report of Biological E warehouse management system upgrade pilot	Mr. Padmakar Jadhav
11:40 – 11:50	Final report of Sinergium 2D barcoding on secondary packaging	Ms. Analia Acebal
11:50 – 12:00	Q&A	All
12:00 – 12:30	Open discussions on lessons learnt: challenges and benefits	All
12:30 – 12:45	Next Steps on dissemination of learnt lessons	All Moderated by Y. Madrid
12:45 – 13:00	Conclusions and supply chain WG perspectives	Moderated by Chairpersons Ms. Lingjiang Yang & Rachel Park All
13:00	Adjourn	Chair
