

- 
- »»» The importance of **Partnerships for Solving Health Challenges** is clear from our presence here today
 - »»» Ensuring **all countries have access to affordable, quality vaccines** isn't only about equity
 - »»» Access to healthcare **impacts global health, the global economy, and the world's ability to overcome pandemics**

- 
- »» Reaching the vaccine equity goal requires collaboration and ambitious funding – and the private sector plays a critical role
 - »» **Our focus is on building a strong and reliable supply side and a coordinated demand side**
