

Empowering Vaccine Production: Truking's Solutions And Global Success Cases

OCT 2025 BALI

TruKing Coverage

Injectable
medicine

A photograph showing several clear glass vials of medicine standing upright on a dark surface, with a medical syringe lying horizontally in front of them.

Oral
medicine

A close-up photograph of a hand wearing a blue nitrile glove, holding a white plastic blister pack containing numerous small, blue, oval-shaped capsules.

Cosmetics
&
Pharmacy

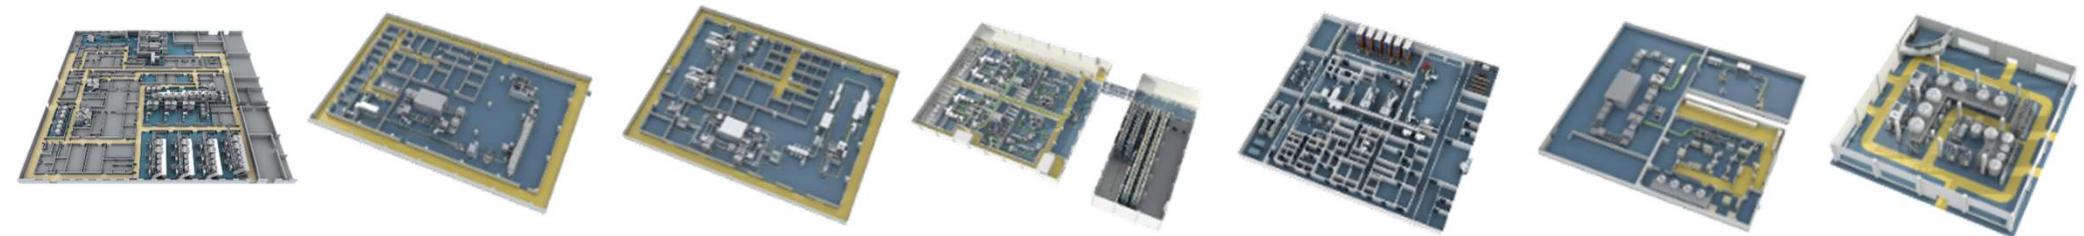

A photograph of a woman with dark hair, smiling broadly. Several clear plastic syringes are held in front of her face, pointing towards the viewer.

Biotech medicine

A photograph of a DNA double helix structure, rendered in a translucent blue color, set against a dark background.

Overview Solution

Combining intelligent industry 4.0 and mobile Internet with technologies, Truking provides pharmaceutical companies with end-to-end solutions from design, verification, engineering, through equipment manufacturing, training, supervision, to value-added services

Integrated Bio-engineering Solution

Integrated PFS Solution

Integrated BFS Solution

Integrated Ampoule Solution

Integrated Freeze-Drying Solution

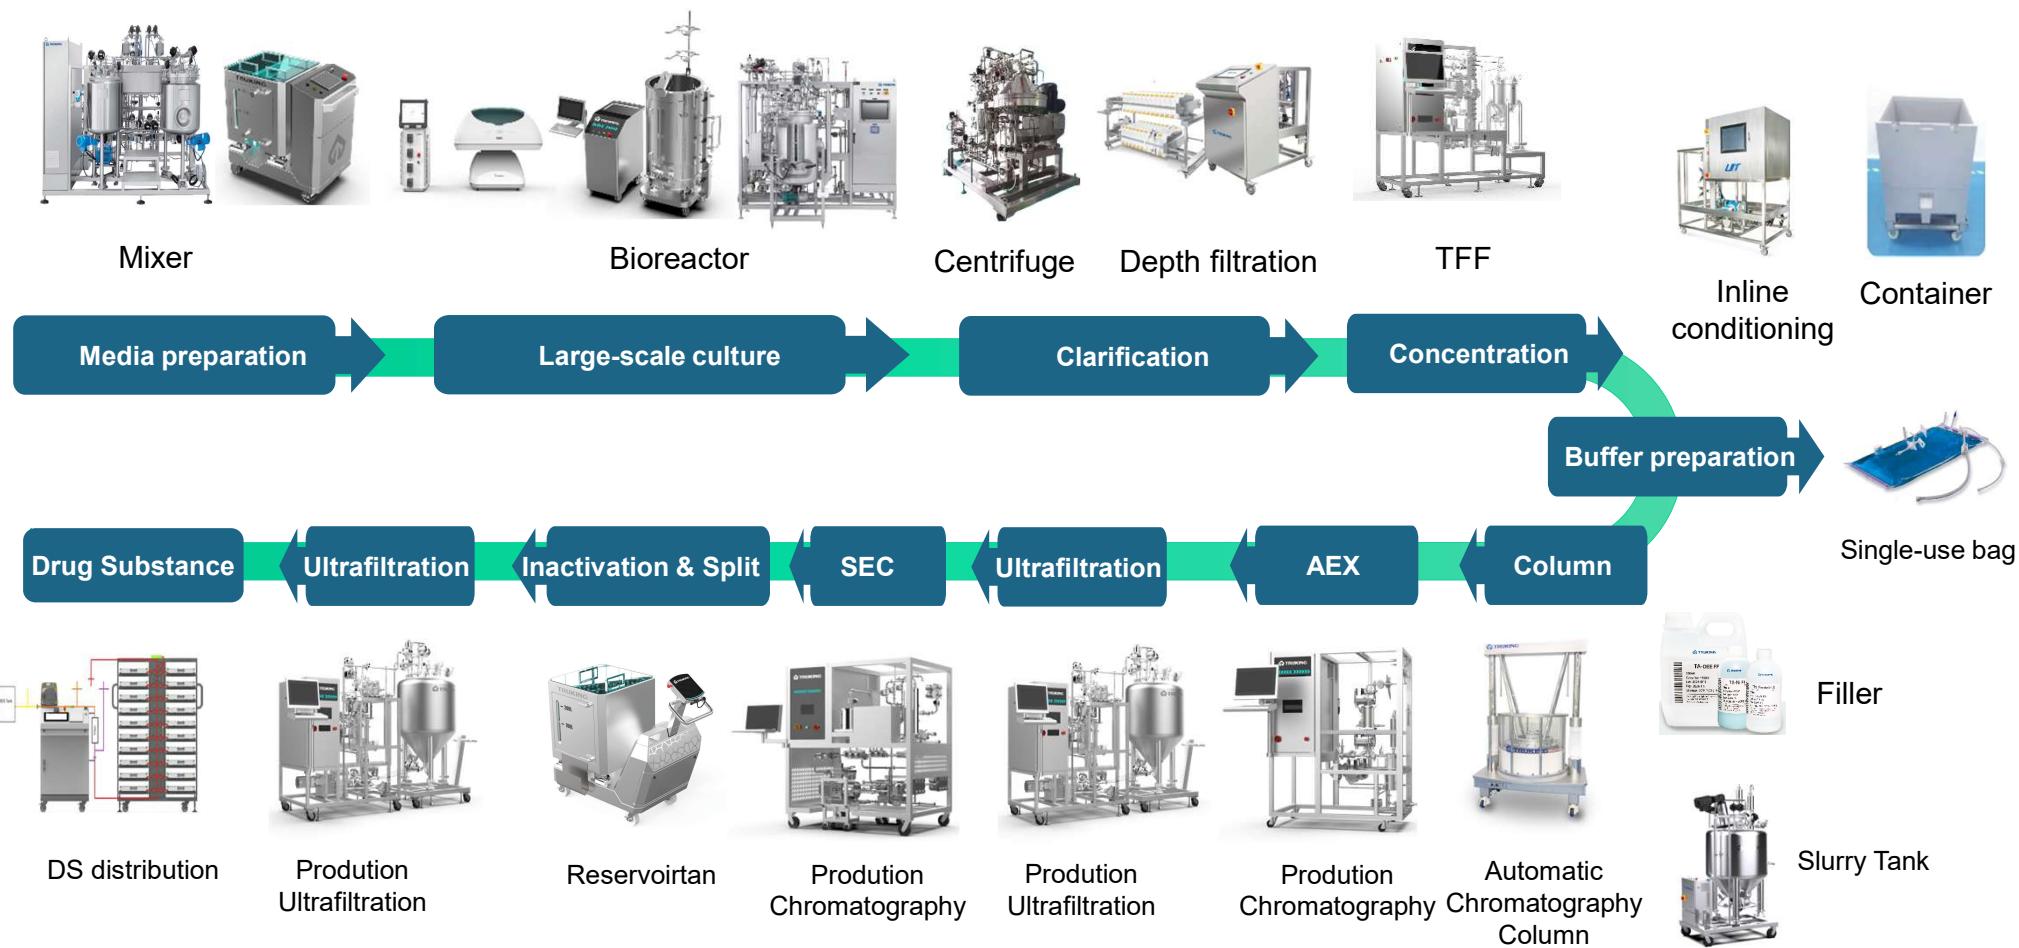

Integrated Solid Dosage Solution

Integrated Pharmaceutical Water Treatment Solution

Integrated solutions for Vaccine Production

TruKing R&D System

Organization

Manufacture Capacity

18 Modern Intelligent Workshop

100+ Million USD Invested

1000+ High-Tech CNC

Customer reference

- mAbs

- Human / animal vaccine

- Blood products

- API

200 Million

Vaccine Typical Customer Cases

Type of Vaccine

Freeze-dried human rabies vaccine (Vero cells), Varicella, DPT.

Order introduction

Purchase equipment: medium preparation system, buffer preparation system, buffer holding system; preparation workshop semi-finished product preparation system, adjuvant preparation system, CIP system

Acceptance photos

Vaccine Typical Customer Cases

Type of Vaccine

COVID-19 vaccine and Rabies vaccine

Order introduction

Purchase equipment: medium preparation system, buffer preparation system, buffer holding system, harvest system, chromatography system, ultrafiltration system; preparation workshop semi-finished product preparation system, adjuvant preparation system, CIP system.

Acceptance photos
